Livestock represent a major source of injury to youth, accounting for at least one in five nonfatal injuries to children every year. Young people who show livestock generally spend a great deal of time with their animals and may be at greater risk of injury. This information is designed for use by youth who raise and show livestock competitively and the adult advisers who guide them. Injury prevention and awareness of livestock-related injuries are our goals.

This DVD contains print and video lessons for:

Beef Safety  
Dairy Safety  
Horse Safety  
Meat Goat Safety  
Sheep Safety  
Swine Safety

Also included on the DVD are guidelines and resources to help young people with disabilities safely participate in livestock project activities, a safety audit checklist, and sources for additional livestock safety information.
